

## Indicators and scoring criteria for assessing timber and pulp producers, processors and traders – July 2020

SPOTT uses a detailed framework of indicators and scoring criteria to assess timber and pulp producers and traders on the public disclosure of their policies, operations and commitments to environmental, social and governance (ESG) best practice. This ensures a fair and consistent approach to assessing all companies on SPOTT. To gain points, a company must make the required information publicly available on its website; within its annual reports, sustainability reports, presentations or other public documents; on the websites of its parent company and/or subsidiaries (if applicable), or on specific third-party platforms (“External sources”).

SPOTT classifies indicators according to the following categories:

**Organisation:** The transparency and content of company disclosure regarding its operations, assets and management structure.

*Examples include total landbank hectarage, the number of mills owned, reporting of salary by gender, and whether the company publishes a sustainability report.*

**Policy:** The transparency and content of company disclosure regarding the policies, commitments and processes it has to guide its operations and practices on the ground.

*Examples include policies on no deforestation, zero burning, and respecting human rights.*

**Practice:** The transparency and content of company disclosure regarding activities it undertakes, in order to actively progress towards its targets and implement its policies and commitments on the ground.

*Examples include reported activities to monitor deforestation and to manage fires in concessions, and the percentage of the company’s supply traceable to mill and plantation/concession level.*

Within the practice category, SPOTT differentiates between data that is self-reported by companies and data that is externally verified (aligning with the Accountability Framework Initiative [AFi]),<sup>1</sup> as follows:

**Externally verified:** Assessment and validation of compliance, performance and/or actions taken by a company relative to its commitment that is verified by either a second- or third-party (as defined by the AFi).

**Self-reported:** Reporting of compliance, performance, and/or actions taken by a company relative to its commitment that is not externally verified, including data that is verified by a first-party (as defined by the AFi).

ID	Indicator	Scoring criteria
1 <span style="color: #92D050;">■</span>	Sustainable forestry policy or commitment for all its operations ESG	<p><b>Disabled if only a processor/trader.</b></p> <p>✔ [1 point] <b>Yes:</b> Has own policy on sustainable/responsible/ethical (or similar) forestry for all the company's forestry operations (i.e. all forest products it produces, processes, purchases and/or trades), or clearly commits to the policy of its parent company or a buyer which covers all of its operations. Can be standalone document or clear policies on sustainability. The policy should cover multiple dimensions of sustainability across the company's operations covering both social and environmental issues.</p> <p>Ⓜ [0.5 points] <b>Partial:</b> Commits to policy of its parent company or buyer, but does not clearly state that it applies to all the company's operations; or has policy, but not clear that the policy applies to all of its own operations (i.e. all forest products it produces, processes, purchases and/or trades); or only general policies/commitments; or policy does not cover both social and environmental issues.</p> <p>✘ [0 points] <b>No:</b> Has no policy/commitments; or only general statement that commits to sustainability; or only has a corporate social responsibility (CSR) programme.</p>
2 <span style="color: #92D050;">■</span>	Sustainable forestry policy or commitment applies to all suppliers ESG	<p><b>Disabled if no suppliers including outgrower scheme and independent suppliers.</b></p> <p>✔ [1 point] <b>Yes:</b> Has own policy on sustainable/responsible/ethical (or similar) forestry for all suppliers. Can be a standalone document or clear policies on sustainability. The policy should cover multiple dimensions of sustainability across all operations covering both social and environmental issues.</p> <p>Ⓜ [0.5 points] <b>Partial:</b> Policy only applies to some suppliers; or only general policy/commitments; or policy does not cover both social and environmental issues; or has separate supplier/sourcing policy that is more limited in scope than main sustainability policy.</p> <p>✘ [0 points] <b>No:</b> Does not meet requirements for this indicator.</p>
3 <span style="color: #92D050;">■</span>	High-level position of responsibility for sustainability G	<p>✔ [1 point] <b>Yes:</b> Reports high-level position with sustainability responsibility, excluding board members.</p> <p>Ⓜ [0.5 points] <b>Partial:</b> Sustainability team or similar, but not clear which position has high-level responsibility; or data between two and five years old.</p> <p>✘ [0 points] <b>No:</b> No data; or data over five years old; or undated.</p>

## Landbank, maps and traceability

ID	Indicator	Scoring criteria
13 	Lists countries and operations ESG	<p><b>Disabled if only a trader.</b></p> <p> <b>[1 point] Yes:</b> Provides details of countries of operation and the nature of operations within those countries (e.g. forest concessions, production facilities). Only include operations upstream and one level downstream (e.g. no sales offices, trading centres).</p> <p> <b>[0.5 points] Partial:</b> Only provides a list of countries where it operates; or only provides partial information (e.g. not all countries listed, details operations only for some countries not all).</p> <p> <b>[0 points] No:</b> No information.</p> <p><b>N.B.</b> Information to be considered unavailable if hard to find/compile – e.g. can only be identified through multiple unrelated webpages.</p>
14 	Lists countries sourcing from ESG	<p><b>Disabled if not a trader.</b></p> <p> <b>[1 point] Yes:</b> Provides all countries it sources timber or pulp from.</p> <p> <b>[0.5 points] Partial:</b> Only provides broad information (e.g. worldwide; or geographical region without specifying whether the company sources from all countries within the region).</p> <p> <b>[0 points] No:</b> No information.</p> <p><b>N.B.</b> Information to be considered unavailable if hard to find/compile – e.g. can only be identified through multiple unrelated webpages</p>
15 	Total area of natural forest designated for wood/wood fibre production (ha) ES	<p><b>Disabled if only plantation-based operations or only a processor/trader.</b></p> <p> <b>[1 point] Yes:</b> Total area of natural forest designated for wood/wood fibre production (may include outgrower scheme areas, if clearly stated).</p> <p> <b>[0.5 points] Partial:</b> Data more than two years old; or data provided does not cover company's known scope of operations; or figure complicated to calculate; or contradictory figures are published from same time period (i.e. same year).</p> <p> <b>[0 points] No:</b> No data; or data over five years old; or data is undated; or figure provided aggregates area controlled by the company and its independent suppliers.</p> <p><b>N.B.</b> Contradictory figures are those which deviate from each other by more than 5%. For example, if the Annual Report states 20,000 ha planted and the Sustainability Report states a figure which is 1,000 ha more or less than 20,000, then these are deemed contradictory figures.</p> <p><b>External source:</b> Forest management plans that have been approved by the government and provided to OTP can be used as long as they are valid, even if published more than two/five years ago: <a href="http://www.opentimberportal.org/operators">http://www.opentimberportal.org/operators</a>.</p>
16 	Total area of forest plantation (ha) ES	<p><b>Disabled if only natural forest-based operations or only a processor/trader.</b></p> <p> <b>[1 point] Yes:</b> Total area planted with trees for wood/wood fibre production, including outgrower scheme areas, if applicable. State in explanation if includes/excludes outgrower scheme areas.</p> <p> <b>[0.5 points] Partial:</b> Data between two and five years old; or data provided does not cover known scope of operations; or figure complicated to calculate; or contradictory figures are published from same time period (i.e. same year).</p> <p> <b>[0 points] No:</b> No data; or data over five years old; or undated; or figure provided aggregates area controlled by the company and its independent suppliers.</p> <p><b>N.B.</b> Contradictory figures are those which deviate from each other by more than 5%. Company has no commitment to reducing deforestation/ conversion.</p> <p><b>N.B.</b> Commitments made through outside initiatives are acceptable, but must meet the requirements of the indicator. For example, the New York Declaration on Forests (NYDF) allows: 1) a weaker no NET deforestation approach – this SPOTT indicator requires a commitment to zero deforestation; and 2) commits only to end forest loss by 2030. This SPOTT indicator requires a zero deforestation commitment to be implemented no later than 1st Jan 2020 for full points. Partial points are earned for a time-bound commitment to zero deforestation after 1st Jan 2020.</p>
